

The Internship program provides students with the opportunity to apply theoretical and conceptual classroom knowledge to practical work experiences, and to gain experience in a professional work environment. Although the Graduate Program has taken reasonable steps to ensure a positive learning environment with sponsors, it should be understood that some aspects are beyond the direct control of the University. In signing this Internship Contract, the student acknowledges that the University cannot be responsible for the sponsor's environment and any risks of the sponsor's environment. In addition I understand my responsibilities as described in the Statement of Agreement attached.

Student Signature _____

Internship provides students with the opportunity to earn academic credit while working in a professional environment. Students learn by applying classroom theory to work performed in an organization whose function or work product is related to the student's area of study. We, the undersigned, have read and approved the above proposal and understand the requirements of this proposal per the responsibilities identified in the Statement of Agreement attached. The sponsor understands that the reports submitted by the intern is a public document and may be requested and read by any requesting citizen of the State of Washington. The sponsor does have the right to inspect all intern reports to insure that it does not violate any company confidentialities. The sponsor also understands that the report must contain sufficient information to evaluate the intern's work. In addition we all affirm that we support equal opportunity and promote diversity.

I understand that the School of Engineering & Technology at the University of Washington will publish my final thesis/report in hard copy and on its web site.
